### Education & Professional Membership

**Taixiang Chen** Graduated from the Law School of Shandong Radio and Television University and Tongji University MBA in July 1988 and July 2003 respectively. He completed ‘Going Global’ Legal Risk Management Program taught by Beijing Foreign Studies University. He finished a series professional competence courses, concentrating on corporate governance and legal and commercial management delivered by CSCEC Training Centre. Chinese is his working language.

He engaged in arbitration work for more than 10 years, and he has been invited to register as arbitrator by SAC(Shanghai), JAC(Jinan), TAC(Tianjin) and HNAC(Hainan) . He solved hundreds of economic disputes with no complaint or appeal from clients. He mainly acted as the presiding arbitrator or sole arbitrator and achieved a case mediation rate over 35%. The cases solved involved the following areas: real estate (including transaction, joint-construction, rental, etc.); construction work (including EPC, BT, BOT, PPP, etc.); civil and commercial affairs (including commercial transaction, contract, donation, commission, agent business, intermediary, etc.); financial affairs (including loan, mortgage, guarantee).

### Current Position

Currently **Taixiang Chen** serves as the General Legal Counsel(CLO) and the head of legal team for China Construction Eighth Engineering Division Co. Ltd.

### Professional Experience

**Taixiang Chen** has engaged in contract & legal risk management in construction industry for more than 30 years. He established a risk management system and legal team adaptable to a multinational construction company, providing consulting services over more than 20 provinces and cities based in China and more than 10 countries and regions overseas. Has trained a large number of outstanding legal personnel to safeguard the development of company.

With his social influence and ability in the construction industry, he has been invited to participate in local and national laws and regulations making and revision concerning on construction and real estate market, playing a positive role in legislation work.

He conducted many creative studies in contract risk management, construction regulation and construction case report, etc. His research publications include “*Guide of Contract Risk Control*”, “*Construction Enterprise Case Report*”, “*The Principle and Practice of Labor Law*” and some other thesis published or documented by website, newspaper and technical and scientific journals.
