Section C: Professional Experience and Career (If available)

I have 08 years experience as the practicing lawyers in the Kingdom of Cambodia.
 In my own first four-year job as the lawyer, I have handled all cases which came up to me by the different clients. The major cases I have handled are criminal and civil cases such as murder, fraud, larceny, robbery, mayhem, rape, embezzlement; and marriage issues, land conflict, contract and loan disputes ; etc. Before these cases go to the courts for hearing, I have to examine the proposed case carefully , to investigate and question the clients witnesses-if existed- in order to find out the prove for the protection of my clients, then I have to file lawsuits, pleadings or other motions to the relevant courts in name or on behalf my the clients. Besides handling the court proceedings and hearing the cases in all levels of courts, I have done many jobs legally such as drafting all kinds of contracts, for instance commercial contracts, Land transferring contract, etc. Further more, I have provided people with legal advices on various issues in the scope of Cambodian legislation.

To day I am speccialized in commercial, trade and banking transactions which I always deal with all this transaction. In the contracts and agreement matters I always be an mediator to coordinate the parties of the contracts/agreements before coming the executions of such contracts/ agreements by the parties. Sometime I really act more likely the arbitrator or Mediation in the initial conflict coming from the execution of the parties to the contracts/ agreements. And so far I have been successfully dealt and settled for many cases peacefully with friendly understanding.
